

Combined Quartet, First Four pools sees turnover rise

By Alan Aitken, 19 January 2015 - South China Morning Post

The merging of the Quartet and First Four pools went off with a rise in turnover and without a hitch, even though thrown a curve ball with the dead-heat for fourth in one race. The separate Quartet and First Four pools had aggregated something just south of HK\$50 million in turnover in the past, but some HK\$67 million was wagered on the two bet types yesterday as they shared turnover for the first time. Executive director of customer and marketing, Richard Cheung Che-kit said the club was happy with the result on a day when turnover was up by only HK\$50 million as a whole. “There were no problems and even having the dead-heat for fourth didn’t cause any issue,” he said.
